NEW

JANESVILLE® V-FORCE™ COAT AND PANTS

Featuring Our Innovative V-Fit™ Design for Optimum Comfort and Mobility.

V-Force™ Coat

- 32" length for males, 29" length for females (35" male available for long torsos/height greater than 5'10"; 32" female available for same situation).
- Contoured raglan sleeves with natural shaping promotes free, unrestricted movement.
- Cuff extended over back of hand delivers optimum protection when extending arms.
- Self-fabric cuff reinforcements for extended wear life.
- Elbows include cutouts, shaped pieces, and darts to create free movement with few restrictions.
- Polymer-coated aramid elbow reinforcements (leather and self fabric optional).
- Fitted side panels provide a more tailored fit and better mobility.
- Unique Viz-a-V™ reflective trim pattern follows the line of garment.
- Comfortable angled collar separates for liner inspection.
- Contoured throat tab for better interface with SCBA mask.
- Narrow storm flap reduces thermal buildup; breathable moisture barrier included in storm flap. Zipper with FR hook and loop closure standard.
- Ever-Dry™ Reach System with Wrist Shield System™ reduces vulnerability to water, steam, and flame. When you reach, full protection stays on your wrist.
- 8" over-the-hand NOMEX®/KEVLAR® wristlets (isodri® version).
- Separable coat liner included for better inspection and repair capability. Moisture barrier liner layer can be completely separated from thermal liner layer.
- Must be worn with new V-Force™ High-Back or Belted Pants models.
- Available in isodri® combinations only.

V-Force™ High-Back and Belted Pants

- Choose from:
 - High-Back Pants** — 5" high-back panel with unique hook and loop support pad for Lion V-Back™ suspenders (required with these pants).
 - Belted Pants** — Low rise waist with belt loops; 2" KEVLAR® belt with thermoplastic, quick-release buckle.
- Male and female models.
- Superior design for reduced bunching of materials in crotch, better overall fit, with contoured legs. Knees include cutouts, shaped pieces, and darts to create free movement with few restrictions.
- Separable pants liner included for better inspection and repair capability. Moisture barrier liner layer can be completely separated from thermal liner layer.
- Snap tabs on front waist for fastening V-Back™ suspenders, not buttons (High-Back Pants).
- Standard zipper fly closure with hook and loop and snap. Breathable moisture barrier in fly facing.
- Knees have water-resistant FR Lite-N-Dri™ closed-cell cushioning in liner.
- V-Notch™ polymer-coated aramid knee reinforcements are standard (leather and self fabric optional).
- Semper Dri™ System guards against absorption in lower half of legs to keep pants drier and lighter.
- Self-fabric cuff reinforcements standard.
- Must be worn with new V-Force™ Coat.
- Available in isodri® combinations only.
